The Moore Center Legislative Updates

Updates from the State House

State Budget Update

The Governor and State Legislature have agreed on a compromise budget which provides full funding for the waitlist and ongoing service budgets, and an additional \$250,000 for each year of the biennium for Early Supports and Services. The budget also includes the first Medicaid rate increase in thirteen years for the Developmental Services System, which will aid in helping to address the work force challenges that

individuals and families are facing. [Read the full update here.](#)

Dental Benefit Work Group

New Hampshire Department of Health and Human Services convened its first public working group session on September 26th, per HB 692 (Ch. 268, Laws of 2019),

to establish a public planning process for the development of an implementation plan to incorporate an adult dental benefit into a value-based care platform within the New Hampshire Medicaid Care Management Program.
