Supported Decision Making - 4 Part Webinar Series

Part 1: Introduction to Supported Decision Making

Limited space available!

Parent to Parent USA invites you to join us along with our partners at the Burton Blatt Institute for a **four part webinar series** on Supported Decision making presented by Jonathan Martinis

PARENT TO PARENT
USA

Webinar Part 1: Introduction to Supported Decision Making

Date: February 4, 2021

Time: 4:00pm - 5:00 pm (EST)

DESCRIPTION:

Study after study has shown that when people with disabilities have more control over their life and make more decisions for themselves – when they have more self-determination – they have better lives. People with disabilities who are more self-determined are more likely to live independently, work, be integrated into their communities, and avoid abuse.

This session will introduce the audience to the theory and practice of Supported Decision-Making (SDM). When people with disabilities use SDM, they work with friends, family, and professionals so they can understand their choices and make their own decisions. As a result, SDM can help people be self-determined, have better life outcomes, and avoid unnecessary guardianship.

If you have any questions, please contact Marsha Quinn at mquinn@p2pusa.org.
