Closed Site Vaccine Clinic Update

Hello Moore Center Families,

I have good news to share. As you may be aware, we were able to provide a small, closed-site vaccine clinic for some of our clients last week. The clinic ran very smoothly and was the result of strong Moore Center advocacy and a lot of

coordination between the Moore Center and our local Department of Public Health partner. In fact, it went so well that we have learned that we will be receiving more doses and can open another closed-site clinic to more clients.

Those of you who have signed up to be a part of the clinic will receive a phone call this week to schedule your appointment time. As you can imagine, there is a lot of work involved in scheduling people and it is helpful if you plan to please answer your phone this week if you see a NH number that you do not recognize, and please respond quickly if you miss the call and receive a voicemail.

Remember that for many of your family members, going through the fixed sites for vaccine administration is still the best option, so if you have an appointment at a fixed site, please keep it, and if you are in the midst of scheduling at vaccines.nh.gov or through 211, please continue that process. The closed site was designed specifically for people we support for whom access to the fixed sites would be difficult.

I know that emotions are running high around access to vaccines, but rest assured we are making progress. We are sharing information as soon as it becomes available to us, and we will continue to do so as new information emerges. Please feel free to share your general questions and concerns with your case managers, but as always, if you have questions pertaining to your individual medical situation and the vaccine, please have a conversation with your primary care provider.

We are excited to be able to provide this service for you and trust that this is a next step in our march towards a healthy community.

Be Well,

Paul
