COVID Update: Outdoor Mask Guidance Change

Dear Moore Center Family,

Guidance regarding masking continues to evolve and is a regular topic of conversation here at the Agency. We work hard to balance the impact of vaccination status, outdoor service options, and the decreasing transmission rates in our area.

For this reason, effective June 9th, the Agency will no longer require the use of masks outdoors for clients, staff, or families. Of course, if individual risks remain high, those with specific health needs will continue to be supported by use of masks.

Those who choose to continue to wear masks outdoors will be supported and encouraged to do so. Distancing, health hygiene, and health screening/temperature checks are still necessary elements that must continue to support this change.

The Moore Center will continue to review and update the masking protocol as guidance evolves. Please reach out to your program manager with any questions.

Stay cool!
