Act Now: Tell Congress to Pass the Better Care Better Jobs Act, a Historic Investment in Disability Services

***This will take less than 60 seconds to email your
representatives through the link below. We need a
groundswell of action – #MedicaidCantWait for this
long-overdue support!***

Right now, advocates from The Arc and partner organizations are gathered in front of the Capitol in Washington, DC reading thousands of stories out loud from people with disabilities and their families about

the importance of disability services in their lives.

By sharing these stories, we are demanding that Congress:

- **Invest \$400 billion in home and community-based services, so people with disabilities have the support they need to live independently instead of in institutions.**
- **Implement a national paid leave program.**
- **Improve the Supplemental Security Income program.**

We need your help – and it's so easy to join us from home! Use the link below to contact your members of Congress and urge them to support these important issues. *It'll take less than 60 seconds.*

Thank you for your advocacy. We have an opportunity right now to make a HUGE difference. Together, we will continue to fight for the full inclusion of people with disabilities!

NH Council on Developmental Disabilities Needs New Members

The NH Council on Developmental Disabilities Council draws its membership exclusively from three groups:

1. People with developmental disabilities
2. Parents or guardians

- of people with developmental disabilities
- 3. Representatives of organizations

We are in need of parents or guardians of adults with developmental disabilities.

Council members are required to attend full Council meetings, currently from 1:00 – 3:00 p.m. on the second Thursday of every other month, and expected to participate in committee work. We have four engaging committees to get you involved:

- 1. Policy** – Keeps the Council updated on laws and policies that affect people with developmental disabilities and their families. Helps the Council develop its official position on any changes.
- 2. Member Relations** – Helps Council members to remain active and engaged and recruits new members.
- 3. Finance** – Monitors the Council’s budget to make sure it aligns with the five-year plan.
- 4. Program and Planning** – Advises the Council on the Small Grant Program and approves applications.
- 5. Self-Advocate Leadership Team (SALT)** – Individuals with developmental disabilities who serve as consultants for the NHCDD and other advocacy organizations.
