Creating opportunities for a good life.™

Update: Important Phase Information

Dear Moore Center Families,

On December 15th, 2021, we moved into Phase One of operations. We have continued to review COVID numbers across New Hampshire and hoped that they would improve, but with the recent prevalence of the Omicron variant in our state, numbers have continued to rise. For this reason, we will remain in Phase One of operations until at least January 31st.

We have continued to encourage everyone to take steps to leverage every safety measure available to us until we see COVID-19 numbers decrease in our community. If you have any questions or needs in this area, do not hesitate to reach out to your case manager or the manager of your program.

Please remember that being fully vaccinated, including receiving your vaccine booster, is one of the best tools we have to stay healthy. Visit <https://www.vaccines.nh.gov/> to find a vaccine or booster offered near you.

Access to our McGregor street location will remain by-appointment only for essential services and meetings that need to take place in person.

Please do not attend an in-person meeting if you have symptoms of COVID-19, have a known exposure, or are awaiting test results. Follow this link for more information about symptoms:

<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>

Please reach out to your program manager if you have questions, and please rest assured that we will continue to evaluate the situation and return to a less restrictive model as soon as it is safe to do so.

Be well,

Janet
