Tell Joint Fiscal Committee to Accept One-Time FMAP Funding!

Your support will make a difference!

We're looking for individuals to contact members of the Joint Fiscal Committee in support of accepting the one time increase of FMAP funding for the Area Agencies. The Joint Fiscal Committee is scheduled to take up this vote on **Friday, Dec 17th**. On the agenda it is listed as Home and Community Based Services through 1915c Waiver. We are asking that you contact the members of the Joint Fiscal Committee by **Wednesday Dec 15th**.

Talking Points:

- FMAP is funding that comes from the federal government that supports developmental services. It is often referred to as the “Federal Medicaid Match”.
- In 2021 the federal government authorized a one-time increase in FMAP,

as a part of American Rescue Plan Act or ARPA to help providers recruit, retain and train Direct Support Professionals and other caregivers.

- New Hampshire's legislative Fiscal Committee must vote to ACCEPT the additional funding.
- Your support of this (by calling or emailing a member of the fiscal committee from your district) will help them to know how important it is to accept this money.

Action Requested

We're asking you to provide a short email or phone call to Joint Fiscal Committee members informing them of how this increased funding will positively impact you, your family or the people you work with. A sample email and phone script is available below.

If anyone has questions or needs assistance please contact Karen Blake at kblake@csni.org or my cell (603) 348-8830.
