New Masking Requirements

Dear Moore Center Families,

I hope that your holidays have been healthy and joyful.

We are continuing to monitor the fluid situation of community spread of the Omicron variant of COVID-19. One change we are making based on new information is that, **effective immediately, all staff, visitors, families and clients accessing in-person meetings or programming are expected to use medical-grade masks, rather than cloth masks.** It has become clear in the past few weeks that these masks can provide greater protection than cloth masks.

If you have meetings scheduled with agency staff, please consider meeting virtually whenever possible to lessen the amount of in-person interactions and the potential for community spread. "CDC expects that anyone with Omicron infection can spread the virus to others, even if they are vaccinated or don't have symptoms."

(<https://www.cdc.gov/coronavirus/2019-ncov/variants/omicron-variant.html>)

We remain committed to updating our practices in accordance with guidance from the CDC and the New Hampshire Department of Public Health in our efforts to protect our workforce, clients, and families. Thank you for your partnership in this goal of keeping our community safe.

Please reach out to your agency contact person if you have any questions, or reach out to me at ceo@moorecenter.org.

Wishing you a safe and happy New Year,

Janet
