**Here's more information on this community forum, along with the Zoom link for those who are able to participate.**

There are very important and impactful changes to the service system being considered and we strongly urge you to participate in the Bureau of Developmental Services System Work Community Forum to discuss them.

In the fall of 2020, the New Hampshire Department of Health and Human Services (DHHS) underwent a review conducted by Alvarez & Marsal – Public Sector Services (A&M). While the review provided recommendations to more effectively and efficiently support citizens in New Hampshire across DHHS programs, it identified several opportunities for BDS to update how individuals and families access supports and services, while ensuring an adequate provider network is available.

DHHS is working to implement the following identified opportunities:

- Waiver Changes
- Reimbursement Rate Changes
- Information System Updates

For more information on these changes and updates, please see the BDS website: <https://www.dhhs.nh.gov/programs-services/disability-care/developmental-services/bds-systems-work>
