### **BDS Systems Work Community Forums**

In the fall of 2020, the New Hampshire Department of Health and Human Services (DHHS) underwent a review conducted by Alvarez & Marsal – Public Sector Services (A&M).

While the review provided recommendations to more effectively and efficiently support citizens in New Hampshire across DHHS programs, it identified several opportunities for BDS to update how individuals and families access supports and services, while ensuring an adequate provider network is available.

## **DHHS is working to implement the following identified opportunities:**

- **Waiver Changes** *\*Today, May 5, 2022, Melissa Hardy, Director of Long Term Supports and Services announced the state is suspending work on the two-waiver system. They are still committed to the approach, but will be focusing on: Reimbursement Rates, IT Modernization, Intensive Treatment Services capacity and Conflict of Interest Corrective Action Plan completion. This is all the information we have right now, but we will keep you posted as we learn more.*
