

# The Moore Center

*Creating opportunities for a good life.™*

## Dear Moore Center Families and Guardians,

I hope you have had the opportunity to enjoy this lovely spring weather.

I wanted to make you aware that as of yesterday, we have returned to a masking policy for all staff and visitors to our buildings. This will hopefully be a short-term measure for the next few weeks while numbers in our community are high.

Spread of COVID in our programs hampers our ability to serve, and puts our workforce and your loved ones and wards at risk of illness. I am urging you to encourage your family member or ward to wear a mask whenever they are working with our staff. I know that this is difficult for some of the people we support, but your efforts in explaining the importance of masking is much appreciated.

If you have any questions, please reach out to me or to your agency contact, and have a great weekend!

Janet
