Help Improve Transportation in New Hampshire:

Transportation is critical to the health, independence, and quality of life for all NH residents. Right now, the NH Commission on Aging is conducting a Community Transportation Needs Assessment to better understand how people are getting around in New Hampshire—and what needs to change. The survey is open to everyone, especially older adults, people with disabilities, veterans, caregivers, and those who experience transportation challenges.

This is your chance to help shape future investments, policy, and transportation services across the state. You are encouraged to share the survey with others in your network.

Take the Survey.

Please join us for a Listening Session to SPEAK UP FOR BETTER TRANSPORTATION

Your Experience Matters: This session is part of a statewide Community Transportation Needs Assessment led by the NH Commission on Aging and ABLE NH's Transportation Equity Task Force.

We want to hear from:

- People with disabilities
- Caregivers and family members
- Direct support professionals
- Advocates and allies

This is a welcoming, informal space to share your experiences and ideas. No preparation needed—just join the conversation and tell us what works, what doesn't, and what would help.

Featured Attendees

Teri Palmer, Statewide Mobility Manager
Representatives from the NH Bureau of Developmental Services

Jen Bubeau, Administrator of the Community Transportation Needs Assessment

*Can't Attend? Your voice is still vital. Please complete the Community Transportation Needs Assessment Survey online. https://www.surveymonkey.com/r/transport_nh

Mark your calendars for:
Friday July 18 at 12 pm or 7 pm, or Saturday July 19 at 10 am

Pass it On: Early Childhood - New Hampshire Family Voices

Whether you're a parent, grandparent, caregiver, or professional, we know how important the early years are—and how overwhelming it can sometimes feel when you're just starting your journey. There's a lot of information coming your way, and we hope this issue helps make things a little easier to navigate. Inside, you'll find helpful tools, inspiring stories, and many resources. We're highlighting two exciting ways that families can get involved in shaping how early childhood programs and systems work in New Hampshire. At the heart of all we do is a deep commitment to supporting families, children, and the professionals who work with them. If you ever have a question, need help finding resources, or just want to talk something through, please remember that you can call us anytime. Our support is always free and confidential. We're here for you—every step of the way.

The Centers for Medicare & Medicaid Services (CMS) is pleased to invite you to an upcoming webinar to provide information and request formative input on pressing issues and topics in the delivery of Medicaid-covered crisis services. This event will take place on **July 23, 2025**.

Section 5124 of the Consolidated Appropriations Act (CAA) of 2023 directs CMS and the Substance Abuse and Mental Health Services Administration (SAMHSA) to establish a National Training and Technical Assistance Center (NTAC) to help states develop an evidence-based continuum of crisis care. As part of our technical assistance series, CMS will be conducting webinars to help facilitate knowledge dissemination, peer-to-peer learning, and state experiences in implementing crisis care systems under Medicaid and CHIP. These learning opportunities are for state Medicaid agencies, local and tribal health departments, community services providers, crisis providers, and others involved in crisis service initiatives. We encourage you to share this invitation with any colleagues who might benefit from participating.

This inaugural webinar will provide an overview of the NTAC's mission, objectives, and the evidence-based supports it will deliver to help states implement robust crisis care systems in alignment with Section 5124 of the CAA of 2023. The webinar will include a solicitation of topics of interest to states and stakeholders in the provision of a crisis continuum.

The login for this webinar: <https://norc.zoom.us/meeting/register/8zhLRFrjS6a1K-KX17RpvA>

CMS and SAMHSA are also pleased to launch our technical assistance center for questions related to crisis services and to assist states in the development of their Medicaid and CHIP continuum of crisis care. For any questions or inquiries, please contact us at CrisisTACenter@cms.hhs.gov.

We look forward to seeing you at the webinar!
